Top reviews from the United StatesJulia Shafer **TOP 100 REVIEWER**★★★★★ **These boots are made for walkin'... I LOVE these boots.**

Reviewed in the United States on February 26, 2022

Size: 9 Women/8 Men | Color: Graphite Black | **Verified Purchase**

Even though these are advertised as "men's boots", I bought them for myself. I needed something for outside in the mud and snow, and these are great. They fit well, are comfortable, and DRY!! Thick, nonslip tread on the bottom, and warm, comfortable, stretchy upper calves. They go on and come off easily, but aren't lose and don't slip. I'm extremely happy with these boots. They

are well made, and seem very durable. (as a side note, I usually need wide calf women's boots, and these fit me fine with no issue)

★★★★★ **Quality boots at a reasonable price**

Reviewed in the United States on March 5, 2022

I bought them for my husband. He just loves these boots. Because they are so practical and comfortable. It is perfect for hunting and fishing in all the elements. My husband wore these all day and they handled the snowy and wet elements. I ordered half size up for him. I figured that will make them easier to get off and wore more socks when it's cold. And the size is perfect for him.

I bought it for fishing, the packaging is good, there are plastic bubble balls in the shape. The whole is very good, the material is very good, the workmanship is meticulous, the thickness is suitable, and the water release and anti-skid effect is good. The shape is good-looking, like leather boots, and it looks foreign. As rain boots, the value is really high!

These boots are perfect if you live in a damp, snowy climate. Even in the summer they are great! The warmest it gets here (in general) is 50's low 70's. Mostly rainy. Juneau AK!

★★★★★ **Love these boots!!!**

Reviewed in the United States on June 5, 2022

Size: 7 Women/6 Men | Color: Graphite Black | **Verified Purchase**

I ordered these muck boots in black in a mens size 6/ women's size 7 because I loved these boots and the fit was perfect. I normally wear a women's size 7 in a boot and took a chance on ordering these. I even have room to wear socks without them being too big. The fit is perfect. Purchased for heavy rain and landscaping/ yard work. I plan on buying these boots again for me in brown.

★☆☆☆☆ **Not surprised**

Reviewed in the United States on March 9, 2022

Size: 11 Women/11 Men | Color: Dark Brown | **Verified Purchase**

I bought these to try after being a 10 yr. Muck user.

My normal size (11) in Drycode was way too big.

The 6mm thickness feels sturdy but the sole and instep felt very soft and floppy.

Everybody likes to save some money, but the value just is not here, imo.

★★★★★ **True to size for foot - calf is snug**

Reviewed in Canada on November 30, 2021

Size: 10 Women/9 Men | Color: Dark Brown | **Verified Purchase**

The fit was true to size, although calf fit is snug. Because of the tight calf fit (with pants tucked in) - getting these off requires you to use one boot against the other. These boots do not have any tab on the heel to help get boots off when you use the toe of one boot against the other) - so will probably wear in the heel area.

★★★★★ **Fitted as hoped. Traction sole is better than conventional heel rubber boots.**

Reviewed in Canada on December 10, 2021

Selected my normal size and found/liked that the inside had enough space for extra heavy socks. Also found the calf width just right for my needs: heavy socks and long johns inside while my nylon pant legs go over the boot instead of in the boot.

★★★★★ **Simply Outstanding!**

Reviewed in Canada on December 12, 2021

Size: 10 Women/9 Men | Color: Graphite Black | **Vine Customer Review of Free Product (What's this?)**

Once again, I am more than impressed with this brand. I have now had the opportunity to test out several styles of Drycode footwear and they do not seem to disappoint.

These are well constructed boots. They feel very tough and durable, but they are still soft enough to feel very comfortable. The inner lining really contributes to the soft feeling and these boots easily flex and move with my foot movements without any discomfort to me whatsoever. They seem to fit just right too. I would say that these are true to size for the most part.

As before, I really like the nice, deep lugs on DryCode boots. They definitely provide very good grip. Equally impressive is the way the Rubber Neoprene design along with the thin inner lining layer (EVA fleece as they call it) really help to retain your heat. I think these will make for perfect mud and Winter boots without feeling clunky. These are very easy to walk in.

★★★★★ **Excellent in comfort and function. Very competitively priced too.**

Reviewed in Canada on November 4, 2021

Size: 13 Women/13 Men | Color: Graphite Black | [Vine Customer Review of Free Product \(What's this?\)](#)

Edit March 5th 2022: "I have now had these through almost an entire winter. I have used them in knee deep snow, shoveling my walkway, walking in general, and even with no socks on and they are still as good as I said in the first version of this review. They shine in circumstances where you really want good traction and they chew up snow and slush with ease."

I'm always wary when buying footwear without trying it on. Having size 13 feet that are on the wide side can be an issue with a lot of products. I slipped these on with ease and was really happy that they fit plus there's extra room for some heavier socks. Easily tucked my jeans inside the neoprene uppers that go about 3/4 the way up my calves. Walking in them was comfortable and while being a higher boot, the neoprene with its flexibility made it way more pleasant than some similar boots. The tops of the boots don't rub against your calves and if they do, because they are of a softer material, they don't cause any issues.

★★★★☆ **Sturdy, waterproof, non slip soles**

Reviewed in Canada on November 21, 2021

Size: 8 Women/7 Men | Color: Graphite Black | [Vine Customer Review of Free Product \(What's this?\)](#)

These are men's boots but I bought the small size (ladies' 8) and was impressed with the soles in particular. There is a lot of room for the foot, width and depth. I take an 8 wide and there is plenty of room for thick socks. In the footwell that is. The shaft is a different story. I'm 5'1" and average calf size. I barely got them on with thin cotton yoga pants but no way could I use jeans or fall/winter pants. The shaft is too narrow and even narrows a bit more at the very top. There is a hard tab at the top inside that chafes and irritates the skin and penetrates through the pants.

The neoprene is only half way down because half the shaft is impenetrable rubber which is great. The soles have deep ridges and are really thick and non-skid. Apart from the fact that I can't wear them due to the too-narrow shaft, these are excellent quality. So if you have wide feet with a slim calf, these are the muck/work boots for you.
